DETAILED ACTION

Response to Arguments

2. Applicant's arguments with respect to claims 19-21 have been considered but are moot in view of the new ground(s) of rejection.

Claim Objections

3. Claim 19 is objected to because of the following informalities: Line 4, insert -- , -- (comma) after "wireless calls". Appropriate correction is required.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) The invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

5. Claims 19-21 rejected under 35 U.S.C. 102(e) as being anticipated by Owensby, Pub. No. US 2002/0077130.

Regarding claim 19, Owensby discloses a method of performing a predetermined action on wireless calls, comprising: receiving a wireless call (paragraphs 0014, 0017,

lines 3-8, 5-9); determining whether the received wireless call falls within a class of wireless calls, the class of wireless calls being one of location incentive offers, wireless based games, and wireless location based advertisements (paragraphs 0015-0016; 0043); and performing a predetermined action on the received wireless call when the determining step determines that the received wireless call falls within the class of wireless calls (paragraphs 0015-0017; 0043).

Regarding claim 20, Owensby discloses establishing the class of wireless calls (paragraphs 0015-0017; 0043).

Regarding claim 21, Owensby discloses the predetermined action is screening the received wireless call (paragraphs 0015-0017; 0043).
